Pattern for Synnøves headband.

Needles 4 mm Yarn: Safir/Rubin

For my 4 year old son I cast on 112 st with limegreen. Since the wool was stretchy, it got a bit wide, so I am sure it will do with 98 st.

Limegreen: knit round for 7 rows, then purl one row, knit 2 rows

Change to white and knit 1 row

Change back to limegreen: knit 1 row Follow diagram for the next 13 rows.

Finish with 1 row limegreen, 1 row white, 2 rows limegreen, purl one row, and then 14 rows of limegreen. I do not bind off my stiches at the end, but do grafting. Almost like kitchener stich at this video (scroll down the site), but I do not have stitches at to needles.

Done

Next time I will use the contrasting colour (white) for the purl row.
